

# CVB8(R)(S)

## 8" speaker baffle technical data sheet

### key features:

- pure white powder coat paint
- 20 AWG galvanized metal
- 4 welded stud mounting points

### key applications:

- baffle grille cover for 8" ceiling speakers

### description:

The CVB8R (round) and CVB8S (square) premium quality ceiling baffles are constructed with heavy gauge galvanized metal that has been powder coated to give a clean solid appearance that will last for years.

### support hardware:

- CVBB8RF flush round back box
- CVBB8RFC flush round back box for concrete
- CVBB8SF flush mount square back box
- CVBB8SS surface mount square back box
- CVTS tile supports

### architect's specifications: CVB8(R)(S)

All 8" ceiling speakers shall be mounted to a Convex CVB8R (for round) or CVB8S (for square) ceiling baffle. These baffles must be manufactured from 20 AWG galvanized metal having a pure white powder coat painted finish. The round baffle CVB8R shall have an overall diameter of 12.75". The square baffle CVB8S shall be 12.5" square. Both must have welded studs for mounting to an 8" ceiling speaker. The baffle shall mount using standard four-hole mounting to align with Convex CVBB8 series back boxes.

### physical dimensions:

CVB8R	12.75" (323.8mm) diameter
CVB8S	12.5" (317.5mm) square
